

# **CAMDEN** recycling **rewards**

## **Application form for local community projects.**

**Deadline: 10<sup>th</sup> August 2016**

# Introduction

**Camden Recycling Rewards will be shortlisting local community projects within the London Borough of Camden as beneficiaries of the scheme. These community projects should provide tangible social and/or environmental benefits to the Borough.**

Camden Recycling Rewards is a scheme rewarding residents for their waste minimisation and recycling efforts. When residents recycle more they will earn more Green Points for their Community, with 5 Communities across the Borough competing to earn the most Green Points.

We will be giving £5,000 to local community projects every 6 months. The Community with the most Green Points after 6 months will win the biggest donation for their selected project.

The selected community projects will become beneficiaries of the scheme that residents can vote for to receive the support of their Community.

There will be a number of local community projects selected from across 5 Communities in the London Borough of Camden: **Camden Town, Kentish Town, Hampstead, Gospel Oak and Holborn.**

Applications are invited from all groups within the community providing:

- Your project provides either tangible social/and or environmental benefits for people within the London Borough of Camden.
- Applications for grants will be considered only from properly formed groups, within the area, that have structure, constitution and/or rules or who can demonstrate they are working towards this status.
- Please note you must have a bank account in the name of your organisation, and the account must have at least two signatures on it, elected from the Management Committee.

## Selection Criteria

Applications are assessed against the following criteria:

1. Relevance to the defined target area.
2. Social benefits and impact for the defined target area.
3. Environmental benefits and impacts for the defined target area.
4. Organisation capability; ie does the applicant organisation have the experience, skills and capacity to deliver the proposed project.
5. Level of partnership working.

## Selection Process

All applications from qualifying organisations are considered by a 'Community Leaders Panel' which is made up of community leaders within the London Borough of Camden. The panel decides which community projects are to be shortlisted and the Panel's decision is final.
